FAISAL RAFIQUE

BS COMPUTER SCIENCE | FRONT END DEVELOPER

Driven and motivated BS Computer Science Graduate, seeking a challenging opportunity to apply and enhance my expertise in front-end development. With a strong proficiency in HTML, CSS, Bootstrap, and JavaScript, I aim to leverage my skills to create visually captivating and user-friendly interfaces. Currently pursuing MERN full stack development, I am committed to expanding my knowledge and contributing to the development of dynamic web applications.

EDUCATION

- **Bachelor of Sciences in Computer Science (2019-2023)**
  Lahore Garrison University

- **ICS (2017-2019)**
  Punjab College, Lahore

- **Matriculation (2015-2017)**
  Govt. Model School, Lahore

SOFT SKILLS

Communication

Adaptability

Teamwork

Leadership

Interpersonal Skills

- **Programming Languages**: Proficient in C, C++, and JavaScript, enabling versatile and efficient coding solutions.
- **Web Development**: Expertise in HTML, CSS, Bootstrap, and JavaScript, crafting captivating and responsive web experiences.
- **Database Technologies**: Skilled in MySQL, employing database management techniques to optimize data storage and retrieval.
- Strong grasp of **responsive web design principles**, ensuring seamless user experiences across devices.
- Experience developing **engaging and interactive user interfaces** to maximize user engagement.
- Ability to **diagnose and debug front-end issues**, optimizing performance and functionality.
- Meticulous attention to detail, effectively translating **design concepts into polished code**.
- Excellent **time management and organizational skills**, consistently meeting project deadlines.
- Effective **communication and collaboration abilities**, fostering productive teamwork and project coordination.

Goals

- Expand proficiency in full stack development, focusing on the MERN stack, to build comprehensive web applications.
- Gain hands-on experience by actively participating in real-world projects, refining skills in practical environments.
- Collaborate with seasoned professionals to learn industry best practices and enhance problem-solving capabilities.
- Stay at the forefront of front-end development trends, continually updating skills through self-improvement and learning.
- Contribute to open-source projects, actively engaging with the developer community to share knowledge and skills.
- Secure a position in a dynamic organization that values innovation, offering opportunities for professional growth.
